Carol Currans

I did it for a better job.
I did it for my son.
I did it for a better future.

I earned my GED.®

Carol Currans dropped out of school during her junior year and struggled to make ends meet, sometimes working as many as three jobs. She earned her GED and a bachelor's degree, which has allowed her to enjoy a stable, fulfilling career. She says that her young son loves school and is already planning for college.

Time is running out!

The GED® test is changing January 1, 2014.

If you've successfully completed parts of the test, finish by December 18, 2013, or your scores will expire.
