Lakeya Stanley

I did it for a better job.
I did it for my daughter.
I did it for a better future.

I earned my GED®.

Lakeya Stanley left school at age 15 and got by working part-time jobs. When her daughter was born, Lakeya decided she wanted more - for her daughter and herself. Now that Lakeya has gotten focused and earned her GED, she looks forward to attending college and beginning a career in early childhood education.

Time is running out!

The GED® test is changing January 1, 2014.

If you've successfully completed parts of the test, finish by December 18, 2013, or your scores will expire.
