

The following was sent to the KYAE listserv.

May 5, 2016

New RLA resource available - created by local KYAE instructor

More Good News!

The first of the units being written by KYAE's 2016 Spring Curriculum Writing Teams is completed, vetted and available in the KYAE Lesson Bank. Sarah Simpson of Martin County has developed a seven-lesson RLA unit titled *Mining for Truth with Point of View*. Surface mining is a relevant topic for many of our students, so thank you, Sarah, for your dedicated efforts to assist your fellow instructors through this wonderful resource.

To download the RLA *Mining for Truth with Point of View* Unit, look for the folder with that title in RLA Lessons and Units at:
