Do you want to pursue a college education but wonder how you'll pay for it? This webinar is designed to provide you with the detailed information you need to apply for student financial aid as an adult learner. Kentucky Higher Education Assistance Authority (KHEAA) will explain how the financial aid process works, discussing when and how to apply for state and federal funds. You'll also see a detailed case study of how a college financial aid package is put together and will learn the methods used to award aid. Additional topics include student loan options for filling the gap if traditional financial aid does not meet your need, common application mistakes, and much more!
