## **FROM CODY DAVIDSON: AOKY program candidates**

This fall, the majority of AOKY students (77%) were adult education students who enrolled at entry levels 3 or 4 and had yet to make a level gain when they started their college classes.

To date, we have more than 4,400 GED®-seeking students who have enrolled at entry levels 3 or 4 and, additionally, more than 1,000 GED®-seeking students who have enrolled at levels 5 or 6.

**Thus, we have almost 5,500 GED®-seeking students who are good candidates for the AOKY program. *If you have not been having career pathway conversations with your students, now is the time to start.*** Please have these critical conversations about earning a GED® diploma and a postsecondary credential – at the same time – to give your students the greatest opportunity for success.
