FYI ... Thought many of you may be interested in this.

Be sure to join us for our next *Tuesdays for Teachers* webinar! You'll take a deeper dive into strategies and techniques to use in the classroom to help your students pass the GED[®] test in this upcoming webinar:

Math Functions – Why Do I Need to Know About Them?

Tuesday, February 28, 2017

3:30 - 5:00 PM ET / 2:30 - 4:00 PM CT

How will I ever use functions? Do I just need to learn it for the GED[®] test? The answer is that the concepts of functions and relationships are core concepts in mathematics. A function is really just any relationship between input and output where there is exactly one output for each input.

Join the GEDTS professional development team as they explore the High Impact Indicator of functions in real-world situations. Learn how to make activities real and accessible to students at different points in their mathematical development. From math practices and resources to lesson plans to online professional development opportunities for you to explore, this webinar will provide you with ideas on how to teach the basics of functions in your GED[®] Prep Math classroom.
