*The following was sent to the listserv.*

## **TABE Online: Training video and tech requirements for new system**

### **More info about TABE Online**

*As shared in a [recent email](#), TABE Online will be migrating to a totally new system on September 13.*

Here is a training video you will want to watch:

<https://tinyurl.com/ybwk2wht>

It provides an overview of what the new platform looks like, how to create sessions, how to update staff, etc.

The minimum technology requirements are listed on the next page:

## Minimum Web Browser Requirements

The Web pages and Web-based applications hosted by the DRC Applications require one of the following minimum Web browsers:

- Microsoft Internet Explorer 11
- Chrome 52 or higher
- Mozilla Firefox 47 or higher
- Apple Safari 9 or higher
- Microsoft Edge 40
- Other Web browsers compatible with these browsers

Additionally, the DRC Applications work optimally at a minimum browser window width of 1024 pixels (for example, a screen resolution of 1024x768 with a maximized browser window). If you do not meet the minimum, the site may require horizontal scrolling to use all functionality.

### PC Users

If you are not sure of the version of your browser, select Help in the menu bar of your browser and choose About. If you need to upgrade your Web browser software, we recommend one of the following:

- [Mozilla Firefox \(Outside Source\)](#)
- [Microsoft Internet Explorer \(Outside Source\)](#)

### Macintosh Users

If you are not sure of the version of your browser, select your browser's application menu and choose About. If you need to upgrade your Web browser software, we recommend one of the following:

- [Mozilla Firefox \(Outside Source\)](#)
- [Apple Safari \(Outside Source\)](#)

### Linux Users

The DRC Applications have been verified to work on Ubuntu 10.04 with Gnome Window Manager 2.3.

If you are not sure of the version of your browser, select your browser's Help menu and choose About. If you need to upgrade your Web browser software, we recommend:

- [Mozilla Firefox \(Outside Source\)](#)

### Additional Information

All Web pages and Web-based applications hosted by the DRC Applications require the Web browser to support [JavaScript \(Outside Source\)](#) and to accept [session-based cookies \(Outside Source\)](#). By default, the major Web browsers are configured to handle this requirement.

More emails will be coming your way that will provide important information about the transition to the new TABE Online system. Please keep your eyes open!
